

Acoustic Guitar Lesson Materials

1. A playable guitar (no warped neck, no cracks, no extreme buzzes, all strings)
2. Hal Leonard Book 1 (if not a beginner I will let you know which method book)
3. A folder or 3- ring binder for handouts, practice logs, and lesson notes
4. Tuner (I prefer a tuner like SNARK because it clips right on to the headstock of the guitar)
5. Metronome or metronome app (I use Pro Metronome by EUM Lab)
6. 2 packs of guitar strings (1 so I can teach you how to put on new strings and 1 in case a string breaks)
7. String winder
8. Music stand (for home)
9. Picks
