

# Bass Guitar Lesson Materials

1. A playable bass guitar (no warped neck, no cracks, no extreme buzzes, all strings)
2. Hal Leonard Bass Guitar Book 1
3. A folder or 3- ring binder for handouts, practice logs, and lesson notes
4. Tuner ( I prefer a tuner like SNARK because it clips right on to the headstock of the guitar)
5. Metronome or metronome app ( I use Pro Metronome by EUM Lab)
6. 2 packs of bass guitar strings (1 so I can teach you how to put on new strings and 1 in case a string breaks)
8. Music stand (for home)
9. Quarter inch guitar cable
10. Bass Guitar amp
